- 11) K. Singh – SE AIIMS Rishikesh
- 12) Dr. A.K. Pandey- MS AIIMS Patna
- 13) A.K. Yadav – DDA AIIMS Patna

1) Initiating the discussion Shri R.S. Manku of HLL Lifecare Ltd (PSA) briefed the members about the proposed commercial tendering terms and conditions of CSSD, MGPS, MOT, OT Light and Integration. (Copy of the presentation is attached for reference). After detailed discussion and deliberation, members agreed to amend the following points in the proposed Draft Tender Enquiry Document:-

- a) It was impressed upon that there must be a provision in the tender enquiry document that the bidders must asked to quote for all six sites along with the techno-commercial bid as in case of failure of reverse bidding mechanism due to lesser number of qualified bidder , the physical price bid of the qualified bidders will be opened . The EMD and the qualification criteria is kept same for all the six sites so that bidder can be made qualified in any one schedule without prior identification of site to avoid cartelization. The bidder qualified for one schedule can be awarded the work for any one of the site which would benefit the exchequer.
- b) The delivery period for CSSD, MGPS, MOT, OT Light and Integration kept as 200 days including training for 2 weeks.
- c) It was also decided that minimum 5 persons from each institute need to be trained for MGPS and CSSD and 10 persons for OT and integration. Delivery, installation and commissioning will be simultaneous to all AIIMS.
- d) In the MGPS tender in BOQ the following need to be added:-  
Trained operator for running and maintenance of MGPS for two years with operators and trained technicians. The detailed scope of work for running and maintenance will be incorporated in the tender enquiry document. The technical specification will be bifurcated as
